Position Title: Senior Web Application Developer

Job Description:

Cognetic Technologies is searching for a full-time Senior Web Application Developer to augment our federal J2EE/GWT development team. The candidate we want is a self-motivated team member who shows strong analytical/problem solving skills, a desire for self-improvement, and a passion for excellence.

Responsibilities:

- Develop rich client applications in Java and GWT
- Participate in all phases of development as a leader of a small team of software engineers
- Develop, maintain, and support multiple enterprise level software libraries
- Provide estimates of level of effort and time for completion
- Analyze requirements to define, refine, and develop useful software solutions

Requirements:

- 5+ Years of professional software development experience in Java
- Experience developing software as the leader of a team
- Proficient in Web Application Development using Java and GWT
- Proficient in HTML and CSS
- Proficient in object-oriented analysis and design
- Knowledge and practical application of design patterns
- Experience with JavaScript, AJAX, SVN, and ANT
- Development experience with Eclipse and/or IntelliJ IDEA
- Familiar with UML sequence and class diagrams
- Excellent verbal and written communication skills

Location:

San Diego, CA

Other Requirement:

Applicant must be U.S. Citizen and possess a DoD Secret clearance.

Application Process:

Send cover letter and resume to hr@cognetech.com or fax to (760) 630-8101.
